PRESENTATION DATE & TIME

Wednesday 5 June @ 14h00

PRESENTATION TITLE

Roots to Shoots
Insights into Biological Root Resilience
and Plant Vitality

CATHY CHURCH

Cathy Church is part of the Andermatt Madumbi Business Development team, specializing in Seedling and Nursery environments. Andermatt Madumbi offers scientifically developed Biological Solutions that promote sustainable growth for all.

With a B.Soc.Sc and a postgraduate degree in Training and Development, Cathy has contributed her expertise to Andermatt Madumbi for the past six years and has a rich 20 year background in Agriculture. Her hands-on field experience, paired with her training and development background, aids in transferring the necessary technical and application knowledge crucial for the successful implementation of the biological solutions.

Cathy is backed by a team of proficient technical biological experts dedicated to delivering top-notch solutions and providing support for technical inquiries. Andermatt Madumbi is a forward-thinking team driven by integrity and a strong desire to create a better environment for future generations.
