

Speaker

DR. CHRIS MARBLE

Dr. Chris Marble is an associate professor of ornamental and landscape weed management in the Department of Environmental Horticulture at the University of Florida. Dr. Marble's research and extension programs focus on developing new methods of weed control using an integrated approach combining both chemical and non-chemical treatments, as well as understanding how nursery production practices influence weed growth and crop performance. Chris travels extensively throughout Florida and beyond to help nursery growers and landscape professionals solve real-world weed management challenges.

PRESENTATION DATE & TIME

Wednesday 5 June @ 09h005

PRESENTATION TITLE

Weed Management
